

NAME	QUES.	POSITION	PARTY	COMMENT
Andrist, John	3	Senate	R	Probably.
Asbridge, Tom	1	Senate	D-NPL	I will try to answer this question in a manner that I hope you will understand. In our family, we have taught that abortion is wrong. We have a hope and belief that our children will believe as we do. We have tried to teach that abortion is unthinkable. That is my goal for society. It is for us, a matter of belief. Making abortion illegal will not end abortion. Sadly, abortion has been available to the wealthy among us for generations. It has become an issue of both race and economic condition. That is immoral on its own. In America, we live in a pluralistic society with many differing and opposing beliefs and moral codes... (continued in box below)
Asbridge, Tom	1	Senate	D-NPL	(Question #1 continued from box above) ...Ours are not negotiable. Whatever the law has been, abortion was never an option in our family. I would hope that all of you will do the same within your families. With that said, my political and personal agenda is and will remain that of making abortion unthinkable and the surest mechanism to accomplish that is the reduction in poverty and making health care available for all of us. It is an issue that has divided us as a nation and will continue to do so. It is now the law of the land, despite my beliefs. At this time, I do not favor changing the legal status of abortion.
Asbridge, Tom	2	Senate	D-NPL	I am a supporter of home education as a basic right. I oppose criteria designed to inhibit home schooling. I am in favor of adequate oversight into home education programs.
Asbridge, Tom	3	Senate	D-NPL	I am not opposed to tax cutting, however, I oppose mandating this issue. It must be in the hands of our legislature. That is why we are a republic and not a democracy. As a citizen in North Dakota, I have other means of making or changing laws that I do not agree with. The ability to fund the necessary government must remain at the discretion of our elected government.
Asbridge, Tom	4	Senate	D-NPL	In general, I support this concept; however, this is not a blanket level of support. It depends on the specifics in the proposed legislation.
Asbridge, Tom	5	Senate	D-NPL	I support the ability of local governments to make these determinations rather than state mandated rules.
Asbridge, Tom	6	Senate	D-NPL	In general, I believe that the home is the best place for sex education. I recognize that as parents, we have fallen far short of doing what is needed in today's society. If this issue is taught at all in our public schools, no priority can be voiced. It is not the role of public schools to be the determiner of preference of any belief over another.
Asbridge, Tom	7	Senate	D-NPL	I am troubled by the manner in which this question is being asked. I am not aware that any public school, here or anywhere, is teaching or should teach anything in regard to acceptability. Homosexuality is a fact of life. It is not in the province of public education to teach that homosexuality is anything other than that.

Asbridge, Tom	8	Senate	D-NPL	At this point in time, I have not seen any proposal to provide tax credits that I would support. However, I am open to ideas along these lines. I recognize the role the education outside of public schools has and will remain in the future, a valuable asset to our society.
Asbridge, Tom	9	Senate	D-NPL	I support this with reservations. To provide information to any pregnant women is a good idea. Coercion to achieve any personal viewpoints is not appropriate.
Asbridge, Tom	10	Senate	D-NPL	This too is a curious question. It is not possible for any beliefs to not influence decisions. If not then they are not really beliefs. As an elected public servant, a balance must be struck between those whom I represent and my personal beliefs. It is a complex issue. If a conflict arises, I would be my responsibility to explain that position to the voters.
Asbridge, Tom	11	Senate	D-NPL	A fairly loaded question that I will answer in this way. Everyone opposes more taxes. We all subscribe to any tax that we personally do not have to pay. The reality is that taxes are a requirement to run an effective and efficient government. I have and will continue to support policy that increases the opportunity for prosperity for all citizens. A more affluent society creates the opportunity to spread our tax burden over a broader group of taxpayers-- lessening that burden individually. Across the board tax cuts are not reflective of good government.
Asbridge, Tom	12	Senate	D-NPL	In general, I do not favor gambling as a mechanism to fund government.
Asbridge, Tom	13	Senate	D-NPL	That is not in the province of either the state or federal government. Constitutional amendment must be reserved for the most serious of issues. This is an issue that is religious in nature and is not appropriate for government involvement.
Asbridge, Tom	14	Senate	D-NPL	I am not aware of a marriage penalty in North Dakota. If it exists, I would support its removal.
Asbridge, Tom	15	Senate	D-NPL	A minimum wage is necessary in operating a modern economy. My support is and always has been that minimum wage standards must be tied to some index rather than an arbitrary number as it is now.
Asbridge, Tom	16	Senate	D-NPL	The premise of this question is fine. The application of it has problems. Information as to abortion alternatives such as adoption is necessary information. It must be presented without religious or moral pressures. We are all entitled to our belief system. That is the American way.
Asbridge, Tom	17	Senate	D-NPL	I fail to understand why this question is present on a family alliance questionnaire. It seems out of place and gives rise to questioning your political motivation and agenda. As to the issue, it is not black and white. Absent adequate information, good answers will not be forthcoming. Energy independence is absolutely an imperative. How we accomplish this goal has broad implications- environmentally, economically and as they relate to national security.

Asbridge, Tom	18	Senate	D-NPL	In an era of incredible medical advancements, we have the ability to do things now that previous generations did not even dream about. This has added a new and complex set of facts for society to grapple with. As I understand your question, I oppose physician assisted suicide. I have issues with the excessive use of life prolonging practices. We certainly need an increased dialogue to understand just what we as a society need to do. I have strong personal beliefs as to my self but at this point, I jsut can't justify obligating my fellow citizens to subscribe to my beliefs. We need input from the religious community as well as the medical community so we can understand this complex issue.
Asbridge, Tom	1-18	Senate	D-NPL	Thank you for the opportunity to speak to your organization. It is the free expression of our beliefs and ideas that represent the core of our democracy. Whatever our viewpoints are, our right to them are absolute..... Again I thank you for the opportunity to speak to the issues that are most important to your organization. While we have areas of disagreement, we have many areas that we agree on. In every piece of legislation, my first priority is the efect that it will have on our state's families. Families are first and if we adhere to that principle, our society will move closer to the goals we all share. The busy world we live in dominated by 2 or more job families creates stress in our family units. It is an economic issue that is difficult one to resolve from a political perspective. However, if we consider families first, I believe that we will advance policy that is family oriented. That should result in a society that is more just and prosperous.
Bartlett, James	1	Senate	R	Abortion should be prohibited for all cases, no exceptions because abortion is murder. It is a pro-abortion position to be pro-abortion for the three names situations. These situations are also used as justification for murder, such as when doctors decide to abort babies based on a mother being depressed. Doctors are not God.
Bartlett, James	2	Senate	R	I direct the ND Home School Association. Here is a better question for legislators and others. "Do you understand that the right to direct the education of one's child comes from the liberty clause of the Fourteenth Amendment to the United States Constitution and that Section 1 of Article 1 of the Declaration of Right in the ND Constitution speaks of the liberty of individuals AND that this provision is authoritative for the proposition that parents should be free to conduct home education for their children without state regulation? Yes or No"
Bartlett, James	3	Senate	R	For thorough tax reform, the total tax burden (local, state, federal) needs to be less than the church tithe (10%). Otherwise, the government is in the place of God. A low sales tax would be enough to support the proper limited role of government.
Bartlett, James	4	Senate	R	41 states have no limits on who does the home schooling. It is an unalienable right for parents to direct the education of their children. Therefore, it is time to affirm such Constitutional liberty to the people of ND, while recognizing the liberal agenda to remove liberties.

Bartlett, James	5	Senate	R	If the sexually oriented business is doing evil according to a Biblical definition, that evil should be outlawed.
Bartlett, James	6	Senate	R	It is not the role of the state to teach human sexuality to young people. It is the responsibility of parents. There should be no sex education in schools.
Bartlett, James	7	Senate	R	Schools should teach reading, writing, arithmetic and be judged by the ND Constitution not liberal values. Homosexual acts are evil and should be prohibited by law, lest God's judgment come upon North Dakota as it did Sodom.
Bartlett, James	8	Senate	R	Parents should not be taxed for school services they do not use. Government should not take the money then refund it, but simply not take it in the first place for anyone not using the public schools. Let's stop thinking of the schools as jobs program and put genuine education and tax payers first.
Bartlett, James	9	Senate	R	The state should not be mandating any medical procedures. It should be outlawing all forms of abortion as murder.
Bartlett, James	10	Senate	R	There is no separating one's faith or worldview (Humanist. Marxist. Christian) from what they think and decide. It is false to assume that any subject is neutral, especially law.
Bartlett, James	11	Senate	R	Taxes and the size of government should be greatly reduced.
Bartlett, James	12	Senate	R	Gambling destroys families and morals. It should be outlawed.
Bartlett, James	15	Senate	R	ND should allow the free market to operate and have no minimum wage law. This only serves to put small businesses out of business or not allow them to start.
Bartlett, James	16	Senate	R	Not paid by the state taxpayers. This is the responsibility churches and individuals.
Bartlett, James	18	Senate	R	Assisted suicide is murder.
Cook, Dwight	2	Senate	R	I have always supported home schoolers. However, you need to be more specific for me to answer this question.
Cook, Dwight	14	Senate	R	I thought we did!
Cook, Dwight	15	Senate	R	I believe we tied ours to the Federal minimum wage.
Damschen, Chuck	3	House	R	ND income taxes are not excessive. I would not support cuts in them unless it was clear that no loss of essential services or increase in other taxes in our state would result.
Damschen, Chuck	10	House	R	For the most part, yes. There are times when you could have difficulty voting either way without being uncomfortable.
Dietrich, Don	15	House	R	Minimum wage is being raised as per ND legislation and nationally.

Dyste, John	15	House	R	Stay same as federal minimum.
Ebertz, Chris	1-18	Senate	D-NPL	My uncle was a priest. My father-in-law was AOG minister. My grandfather-in-law= G.L. Riffe, Founder, ND, AOG. I am a Democrat to change the Dem. party... We are a community. Vouchers & home school is a cop out. We need to fix the system public edu.!
Erbele, Robert	2	Senate	R	Would need to know the specifics of what "freedoms" are being sought.
Erbele, Robert	3	Senate	R	Would need to know how the revenue would be replaced.
Freborg, Layton	4	Senate	R	If qualified.
Froseth, Glen	2	House	R	I would have to see the bill and study it.
Froseth, Glen	3	House	R	This should be the Legislature's responsibility to determine level of these taxes- no more than needed
Froseth, Glen	10	House	R	These beliefs influence me in most everything I do.
Hamm, Adam	2	Ins Com	R	Yes, depending on the specific language and intent of the bill.
Hamm, Adam	3	Ins Com	R	I believe in cutting taxes, but it needs to be sustainable.
Hamm, Adam	4	Ins Com	R	Not enough specific information for me to make a determination.
Hamm, Adam	6	Ins Com	R	I believe that abstinence should be a part of sex education teaching. I also believe that it is up to local elected school officials to set and implement policy on this issue.
Hamm, Adam	7	Ins Com	R	As indicated in my comments to #6, I support local elected school officials setting policy on this issue. Additionally, I believe it is up to parents to discuss this issue fully with their children.
Hamm, Adam	8	Ins Com	R	Increased funding for public education needs to be addressed first before looking at this private education issue.
Hamm, Adam	9	Ins Com	R	North Dakota's abortion providers should be required to provide informed consent information and a 24 hour timeframe for the woman to look through the information.
Hamm, Adam	10	Ins Com	R	One of the foundations of our country is the separation of church and state. This separation helps ensure freedom of religion. I do believe that an individual's personal religious beliefs influence his or her decisions.
Hamm, Adam	12	Ins Com	R	It would of course depend on what the specific expansion was, but it would have to be looked at thoroughly and carefully.

Hamm, Adam	15	Ins Com	R	I support it keeping pace with the federal minimum wage.
Hamm, Adam	16	Ins Com	R	As indicated in my comments to #9, North Dakota's abortion providers should be required to provide informed consent information and a 24 hour timeframe for the woman to look through the information.
Hoeven, John/ Dalrymple, Jack	2	Gov/ Lt Go	R	Yes, under the right conditions.
Hoeven, John/ Dalrymple, Jack	3	Gov/ Lt Go	R	I believe in providing broad-based tax relief, but support a more balanced and sustainable approach.
Hoeven, John/ Dalrymple, Jack	4	Gov/ Lt Go	R	I need more information to make a determination.
Hoeven, John/ Dalrymple, Jack	6	Gov/ Lt Go	R	Abstinence should be included in sex education, but I support elected local school boards setting policy on teaching sex education.
Hoeven, John/ Dalrymple, Jack	7	Gov/ Lt Go	R	I believe it is up to parents to address this issue with their children, and elected local school boards should set policy on sex education.
Hoeven, John/ Dalrymple, Jack	8	Gov/ Lt Go	R	We need to first increase funding for public education before we look at vouchers or tax credits for private education.

Hoeven, John/ Dalrymple, Jack	9	Gov/ Lt Go	R	Abortion providers should be required to provide "informed consent" information about the medical and psychological risks, fetal development, abortion alternatives and to allow the woman a 24-hour period to review the information.
Hoeven, John/ Dalrymple, Jack	10	Gov/ Lt Go	R	We have separation of church and state in America to ensure religious freedom, but an individual's personal faith does inform his or her decisions.
Hoeven, John/ Dalrymple, Jack	12	Gov/ Lt Go	R	It would depend on the circumstances, but any expansion of gambling would have to be approached carefully.
Hoeven, John/ Dalrymple, Jack	14	Gov/ Lt Go	R	Last session we eliminated the marriage penalty for middle-income couples.
Hoeven, John/ Dalrymple, Jack	15	Gov/ Lt Go	R	I support increasing the state minimum wage, but it should be done in step with the federal minimum wage.
Hoeven, John/ Dalrymple, Jack	16	Gov/ Lt Go	R	Abortion providers should be required to inform women of abortion alternatives and allow them time to review the information before making any final decisions.
Hunskor, Bob	2	House	D-NPL	If such legislation would not endanger a quality education for children.
Hunskor, Bob	3	House	D-NPL	I would rather see legislation that would cut or lessen the property tax burden.
Hunskor, Bob	4	House	D-NPL	Natural and/or adoptive grandparents may not have the energy or qualifications necessary to provide a quality education.

Kalk, Brian	1-18	b Serv Cor	R	Thank you so much for the recent candidate questionnaire. I would encourage you and the members for the North Dakota Family Alliance to fully research my website (www.briankalk.com) and get to know me better. I am running for North Dakota Public Service Commission to fully use the skills given me to benefit our state and our country. My 20 years in the U.S. Marine Corps and teaching experience at North Dakota State University make me the "Perfect Fit" to be the next Public Service Commissioner of North Dakota. My general views on your questions are as follows "Life begins at conception and ends at your natural death. Marriage is between one man and one woman. Education is the key to success in this world, it begins and ends at home. A fair wage should be given for an honest days work." I look forward to any opportunity to speak to you, or members of your organization, so I can answer any questions you have "face to face."
Kasper, Jim	1	House	R	too lenient
Kasper, Jim	3	House	R	Individual - 25%; Corp - 25%.
Kasper, Jim	7	House	R	NEVER
Kasper, Jim	14	House	R	I co-sponsored bill in 2007 to do so.
Kelsch, Rae	8	House	R	When the state of ND is fully funding public education, then we can look at programs like this.
Kelsch, Rae	15	House	R	Federal standards should make this determination.
Kelsh, Jerome	2	House	D-NPL	I need to see the bill.
Kelsh, Jerome	4	House	D-NPL	Unless they are certified.
Kelsh, Jerome	6	House	D-NPL	They both need to be taught.
Kelsh, Jerome	11	House	D-NPL	We are being heavily taxed at the gas pump.
Kelsh, Jerome	17	House	D-NPL	I think we need to find out how much oil is there, and we need to protect the environment. They have 68,000,000 acres of federal land they haven't drilled on.
Kiefert, Dwight	1	House	R	I do not know of any condition where the mother's life is in danger outside of possibly a tubular pregnancy. As for rape or incest, is it right to turn the unborn into a victim? They had no say in their conception, why sentence them to death? There are many parents waiting to adopt.

Kiefert, Dwight	3	House	R	As far as I know, I am the only candidate from District 24 that has signed a pledge from the Americans for Tax Reform that pledges to vote against all tax increases and New Taxes. I would be willing to look at reducing our present taxes and spending with the intent of limiting and ridding the tax payers of wasteful spending.
Kiefert, Dwight	6	House	R	The only safe sex is abstinence until marriage. There are over 200 variations to the HPV virus that caused cervical cancer. There are no cures for any sexual transmitted diseases. The only safe sex is to wait until marriage and remain faithful to your spouse. There is no safe sex outside of a faithful marriage.
Kiefert, Dwight	7	House	R	When Wayne Sanstead sent out the sex education agenda to ND schools after ND voters voted NO to sex education, an attempt was made to recall him, it is too bad that it failed. It is my understanding that this teaching is that homosexual relationships are acceptable and considered as special friendships. This was to be taught in the first years of a child's education. If they are told it is acceptable at any early age, they will think it is normal. If I remember correctly, Sanstead's excuse for sending it out to our schools was, "they had spend too much money developing this education not to use it." To date, I have not heard of any schools in ND teaching this agenda although it is already in the schools possession. We will not forget this Wayne.
Kiefert, Dwight	9	House	R	If women can see for themselves that it is a human being with a beating heart, it might be enough to convince them not to kill their child.
Kiefert, Dwight	10	House	R	If they cannot follow the ten commandments while in office, I am not sure it is a good place for them to be. If they cannot follow what they believe in, they really have very little backbone. We live in what is believed to be a Christian Nation. If this is true, we should remain true to Christian values.
Kiefert, Dwight	11	House	R	As far as I am aware, I am the only candidate from District 24 that has signed the pledge with the Americans for tax reform, to vote against any New or increases of taxes. If they are going to raise taxes or vote in new taxes, they will have to do it without my vote. I am a man of my word and will honor this pledge.
Kiefert, Dwight	12	House	R	I am not in favor of gambling. I think it is just a way for the government and the casinos to siphon away the peoples hard earned dollars. Many people are addicted to gambling and loose the money they need to survive. It can be very burdensome on families.
Kiefert, Dwight	15	House	R	Minimum wage could probably use an increase, but minimum wage we have to remember is only a starting point for workers. They should strive to better themselves and seek higher paying positions. Minimum wage is some place where you gain experience and then move on.
Kiefert, Dwight	16	House	R	The hope would be that more women would seek adopting as an alternative.

Kiefert, Dwight	17	House	R	For the short term, we need to develop our own oil reserves, this should be able to be done in a way safe for the environment. We also need to continue to develop our other renewable energy sources, such as wind, and natural gas. The time has come for us to lessen our dependence on Oil, electric cars and nuclear power will take more time to establish, that is why it is so important to do more drilling now because it will have a much quicker impact on the cost of our energy while we implement our other sources of energy. American has solved problems in the past, and we will get through this one too if we work together.
Kiefert, Dwight	18	House	R	I am against this first because, as a Christian, suicide only hastens judgment. Secondly, people who loose their job or get a divorce could simply decide life just isn't worth living so they will just end it all with this procedure. People who have a down day would have the option just to go to their so called doctor, (one who has taken an oath to heal), and end their life.
Klein, Jerry	1	Senate	R	The physician will make that decision as to if the mother's life is in danger. Even in the case of rape and incest are we not adding another burden on the victim by providing her an abortion. I think abortions should be prohibited period. I am also very supportive of the S.D. initiative.
Klein, Jerry	15	Senate	R	It is not up to government to set a wage. The economy will dictate the wage. Currently North Dakota has a tremendously low amount of minimum wage earners. There needs to be some flexibility, especially when hiring very young people who are getting their f
Kretschmar, William	12	House	R	Depends on what is expanded.
Kretschmar, William	15	House	R	Keep it the same as Federal law.
Laird, Max	1	Sup PI		No Answer... I am not a supporter of abortion as a method of contraception. BUT Until I see organizations like this have an agenda dealing with adoption, the discussion does not get my support. I deal every day in my work with children trying to raise children. Most of those parents are not equipped to raise a child and someone else ends up with the job.
Laird, Max	2	Sup PI		No Answer... Until I see what is being proposed and why, I am unwilling to commit to anything in this category. All children must be afforded a quality education, and it will be my job as Superintendent to insure that happens.
Laird, Max	3	Sup PI		No... We must first address the issue of property taxes. Plus, the legislature must be the lead on any changes in taxes in ND.
Laird, Max	4	Sup PI		Undecided... I need to see information on this issue. I am willing to listen.
Laird, Max	5	Sup PI		No answer... I believe this continues to be an undecided constitutional question.
Laird, Max	7	Sup PI		No Answer. It is my responsibility to teach ALL children from the full continuum of society. I do not pass judgment on to my classes.

Laird, Max	9	Sup PI		No answer. See number one.
Laird, Max	10	Sup PI		Yes... They always have and they always will influence our decisions. This is not new, nor is it unique to anywhere humans reside.
Laird, Max	12	Sup PI		No answer... This is too vague to answer with any clarity.
Laird, Max	13	Sup PI		No... This continues to be a local issue on a state by state basis. I am very reticent to support amending the constitution for anything. I support laws that allow self determination.
Laird, Max	16	Sup PI		No answer... See number one.
Laird, Max	17	Sup PI		Undecided. I anticipate that as time goes by both issues will be resolved.
Lee, Gary	2	Senate	R	The state has a constitutional obligation to provide for education, and adequate oversight to ensure quality.
Lee, Gary	3	Senate	R	1. Depends on the states need. 2. Oppose the initiated measure. 3. Should be elected officials responsibility.
Lee, Gary	11	Senate	R	In general- yes. There may be times when that is the only alternative.
Lee, Gary	16	Senate	R	By whom?
Mathern, Tim/ Boucher, Merle	3	Gov/ Lt Go	D-NPL	We support giving tax relief to North Dakota families in a way that reduces their property taxes. Property tax bills are where North Dakota families are feeling the real pinch, and we're hoping to pass a tax cut that is: a.) Substantially larger in amount than the ballot measure income tax cut. b.) Specifically targeted to the area where people need the most relief. Passing a rigid income and corporate tax cut as a ballot measure this fall will hamper our ability to bring this kind of real property tax relief during the next legislative session.
Mathern, Tim/ Boucher, Merle	7	Gov/ Lt Go	D-NPL	The public schools should not be involved in teaching children anything at all about homosexuality. I believe that this is an issue that is best worked out between a young adult and their family, their church and their community.
Mathern, Tim/ Boucher, Merle	8	Gov/ Lt Go	D-NPL	If the public schools are properly funded this session we can go to tax credits.
Mathern, Tim/ Boucher, Merle	9	Gov/ Lt Go	D-NPL	Depends on the stage of pregnancy.

Mathern, Tim/ Boucher, Merle	10	Gov/ Lt Go	D-NPL	My deep Catholic faith influences everything I do in my personal and professional life. I don't believe I could ever fully separate it from the decisions I'd be making as governor.
Mathern, Tim/ Boucher, Merle	17	Gov/ Lt Go	D-NPL	Offshore yes. Need to know more about protections for refuge.
Metcalf, Ralph	2	House	D-NPL	If properly educated and certified.
Metcalf, Ralph	4	House	D-NPL	As above stated.
Miller, Joe	3	Senate	R	I encourage the cities of North Dakota to examine if they feel their income taxes in ND are too high. I believe tax cuts are good but we need to place an emphasis on property tax reductions. If the measure passes I think it is a positive step, just not on
Miller, Joe	6	Senate	R	Abstinence based programs should be favored and should take priority over "safe sex" programs, but I believe "safe sex" programs do need to be a part of high school aged students programs.
Miller, Joe	7	Senate	R	Homosexuality is a part of our society. Schools cannot get dragged into the morality discussion if it is ok or not. Schools need to promote citizenship. Good citizens respect opinions and understand there are differences, but hold convictions and can spea
Monson, David	2	House	R	Need to see the bill or hear the idea first.
Monson, David	3	House	R	May consider some kind of tax cut if initiated measures fail.
Monson, David	9	House	R	Why? If for health reason- yes.
Monson, David	15	House	R	Follow fed. rate.
Mueller, Phillip	2	House	D-NPL	They have a great deal of freedom now.
Mueller, Phillip	6	House	D-NPL	They should prioritize on an equal basis.
Mueller, Phillip	8	House	D-NPL	Parents have a choice. Parents have the right to educate however they want including sending their children to public education institutions. The state cannot afford to fund all possible education systems.
Mueller, Phillip	10	House	D-NPL	It's inevitable but good judgment be used.

Mueller, Phillip	14	House	D-NPL	But only if it fair and equal.
Mueller, Phillip	17	House	D-NPL	No to ANWR, but yes to offshore. It is important that on shore oil resources be fully explored before exploring and drilling offshore.
Nathe, Mike	4	House	R	Need more information on this issue.
Nathe, Mike	6	House	R	Need more information on this issue.
Nathe, Mike	9	House	R	Need more info on this issue.
Nething, Dave	2	Senate	R	Probably, but only after legislative hearing to flush out the details.
Nething, Dave	3	Senate	R	Not without legislative hearings to flush out the details.
Nething, Dave	4	Senate	R	So long as the grandparents meet qualifications.
Nething, Dave	8	Senate	R	If tax credits are allowed, the schools selected should meet the same requirements as government schools.
Nething, Dave	9	Senate	R	I don't know why or why not. I am pro-life as indicated in my answer to #1.
Nething, Dave	10	Senate	R	I don't know how you can separate them. If you know, I would like to know your answer.
Nething, Dave	15	Senate	R	Why not? We already pay more than the minimum wage.
Nething, Dave	17	Senate	R	I don't see this as a subject to be voted on in the state legislature.
Owens, Mark	9	House	R	Purpose?
Owens, Mark	10	House	R	This happens because we are human.
Peterson, Christine	1	House	D-NPL	I am <u>not</u> pro-abortion. We have adopted children!
Peterson, Christine	1-18	House	D-NPL	As first time candidate, I <u>need to learn</u> more on many issues and I will do so.
Porter, Todd	2	House	R	I would like to see what the freedoms are.
Porter, Todd	8	House	R	Need to make sure we are meeting our public schools requirement first.
Porter, Todd	12	House	R	Case by case.

Porter, Todd	15	House	R	Need to continue to match federal.
Robinson, Larry	8	Senate	D-NPL	I am struggling with this one. I support the concept. However, I constantly hear from folks that believe that we need to put more money into public education to lessen the pressure on local property taxes. There is also the concern about low teacher salaries. The argument is we ought not to begin broadening our base before we can fund public education at an appropriate level first.
Robinson, Larry	11	Senate	D-NPL	I am generally opposed to increasing taxes. That would certainly be the case in this environment. However, there are times when the welfare of our state and our people depend on additional revenue. When that is the case, I can support a tax increase for purposes like education, family support, programs to support the mentally and physically challenged, etc.
Robinson, Larry	15	Senate	D-NPL	The folks who are on a fixed income or a minimum wage in this economy are struggling in a big way. The experts will tell you that there is practically no one on a minimum wage at the present time. If that is the case, it would not hurt to increase it but it would impact the base. As a result it may have some impact in improving wages at the lower end. I have had numerous calls from folks who cannot afford child care, medical treatment, gasoline, and even groceries. My heart goes out to those folks who are trying to support a family on a low wage. The entire family suffers, especially the children. Ther is seldom health care, dental care, proper nutrition, etc.
Robinson, Larry	17	Senate	D-NPL	I am generally in favor of further oil exploration. However, there are currently millions of acres of land off shore for the companies to explore and drill on and they are choosing not to drill. Is it because the cost benefit analysis is not to their advantage? They are currently realizing record profits. Why are they not investing in new wells at a greater pace on land that is already under lease? Any effort in Alaska will take years and years to realize any real benefits. This comes at a time when nearly 20,000 corporations are maintaining off shore addresses to escape income taxes in this country. This is totally wrong. The question gets to be, who is pulling the wagon? This issue has been politicized to the point that few, if any, know the real story. If we were serious about our energy crisis we would immediately lower the national speed limit to 65 MPH. That has not happened for a variety of reasons. Anyone in the know, will say that our first priority should be to conserve. We have not done much in this area either. There also needs to be ongoing research in to other renewable forms of energy, higher mileage vehicles, etc.
Rust, David	2	House	R	There's great freedom now to home educate.
Rust, David	3	House	R	This is a bad question. It's like, "Would you rather be shot or hanged?"

Rust, David	4	House	R	They can <u>now</u> .
Rust, David	10	House	R	Let's be honest. Our beliefs <u>always</u> influence our decisions!
Rust, David	11	House	R	Although I may vote to tax some <u>things</u> !
Slotsve, Roger	2	House	R	Would need to see proposal before saying yes or no.
Slotsve, Roger	3	House	R	Would support reducing taxes, by legislative action.
Slotsve, Roger	10	House	R	I don't know how a person could keep your beliefs out of your decisions!
Slotsve, Roger	13	House	R	State right to decide, not federal.
Wagar, Jon	3	House	R	I don't want to commit to a particular amount without additional data.
Wagar, Jon	8	House	R	My "gut reaction" is yes, but I'd want to hear testimony from both sides before making a commitment.
Weisz, Robin	10	House	R	Only to the extent that our religious beliefs influence our way of looking at things, but not to influence legislation to benefit our own religion.
Wrangham, Dwight	8	House	R	Somewhat
